DETAILED ACTION

Response to Amendment

The amendment filed on October 4, 2007 has been considered but is ineffective to place the application in condition for allowance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. As noted in the previous Office Action (8/13/07), the claims are written more in the form of an Abstract as opposed to a proper method or apparatus claim. For example, regarding claims 1 and 6, the recitation, "*knife frame can be set...in a lateral direction...*" is unclear, is it, i.e. the knife frame or is it not set in a lateral direction? Additionally, the recitation, "which runs parallel" is not clear. Examiner suggests, --is parallel to--. Clarification is required.

With regard to claim 3 there is no antecedent basis for angle β . What is angle β and how does this angler relate to the rest of the positively recited limitations?

Further as noted previously, the above listing of 35 U.S.C. 112 rejections is not conclusive and Application is required to review all of the claims for compliance to 35 U.S.C. 112 so as to enable a clear understanding of the claimed invention to facilitate proper application

of the prior art. Claims 1-9 have not been further treated on the merits, however as presently presented the claims are not deemed allowable.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
